

Foam Latex Grip Anti-Slip Safety Gloves

No: RJX04

Features

Foam latex grip work gloves, also known as anti-slip foam latex gloves. These are commonly used safety gloves. They feature an embossed texture and offer excellent grip. The gloves are soft, breathable, comfortable, and slip-resistant, making them suitable for dry, wet, and light oily conditions, and are suitable for warehousing, construction, and material handling tasks. We provide customized OEM solutions.

Excellent grip
13- and 15-gauge knit liners
Suitable for long working hours
Helps reduce hand fatigue
